

ROUTE PLANNING / FOUR ROUTES, ONE SMART CHOICE

Smarter routes. Faster deliveries.

From start to finish with less time on the road. Enter your departure time and we will compare four routes to find the shortest estimated journey.

15 min

Saved per trip on average

01 **When are you leaving?**
Choose a time between 06:00 and 17:59

08 : 15

Find best route

HOW IT WORKS

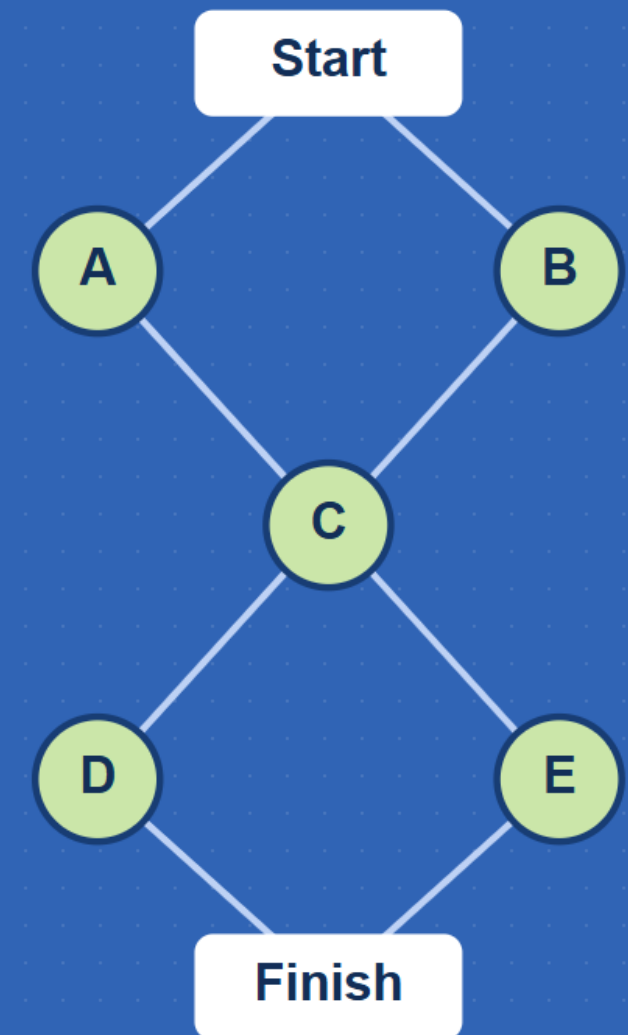

01 Choose your departure time

02 Models compare four routes

03 Get the fastest route

FOUR ROUTES. ONE DESTINATION.

From departure to delivery.

Same start. Same destination.
Your departure time determines the route.

OUR RECOMMENDATION

Take route

B → C → E

Expected range69–77 min

ESTIMATED TRAVEL TIME

73 min

Based on historical journey data

B

C

E

Estimated savings vs. a random route

19.6 min per trip

Choosing randomly between the four routes gives **93.0 min** on average when departing at 08:15. This assumes each route is equally likely and uses model predictions, not measured time savings.
